R. M. P. is -

Gentlemen:-

I desire to inform you of an episode which should be of interest to you.

I arrived at Kingston with my wife from New York on your good ship "Sweet" on Feb 27<sup>th</sup> & desired to return to New York in April. I immediately looked for the "Globe" schedule to sail April 11<sup>th</sup> and was assigned satisfactory accommodations. I then met various persons at meetings and your agents there that the "Globe" had been substituted for the "Sweet". I paid you \$100.00 for the passage and my wife's passage to Kingston.

accommodations; your Kingston agents at once replied allowing me Cabin 153-157. Both was <sup>as arranged</sup> satisfactory. We reached Kingston April 9<sup>th</sup>. I called on your Kingston agents showed them the passage ticket issued by the Master of the "Sweet" which called for Cabin 153-157 and was assured by your Kingston agent that all I had to do was to come on board and occupy it.

On reaching the "Sweet" in the afternoon of April 12<sup>th</sup> I desired to see <sup>my</sup> wife that her cabin was occupied by other passengers who had come through. I was told from Kingston had been assigned for my wife. This was for my wife and my child. I was put in

to great personal inconvenience  
and the matter was finally  
adjusted late in the night  
of April 10-11 by building a  
temporary cabin for us out  
of rafts, in which kind  
of a frame we are proceeding  
to New York

I do not think that your time  
can well afford to have such  
mistakes happen, and inform  
you of the facts in the case  
for such action as you may  
deem proper

Incidentally, I wish to express  
my admiration of the resources  
and hardy treatment we have  
secured, your nearly all night  
sup. employees, your line, and  
also to express my hope that you  
will have some success in your  
work as it is at present the  
district is at present the  
most difficult of our work
